

# Reimagine the Stop Loss Experience

## With Excess Reinsurance

The cost of providing healthcare benefits to employees presents challenges for many organizations. Excess Reinsurance is here to help clients navigate this complex and ever-changing landscape. The exceptional attention and care we provide clients include an unwavering commitment to understanding the changes related to regulations, best practices, and industry trends.

At Excess Reinsurance we pride ourselves on creating lasting relationships with our clients while delivering custom and flexible solutions based on their needs. Whether you're looking for a traditional product, a shared risk arrangement, or a unique solution, our team has the skills and knowledge to develop a curated solution to help you accomplish your goals.

Provides a simplified, level-funded solution with integrated aggregate accommodation

Ensures employers are satisfying the ACA's employer mandate by providing affordable solutions

Provides integrated stop-loss coverage and legal defense protection for self-funded RBP plans

Delivers the advantages of being in a captive without the complexity, collateralization, downside risk, and excessive fees typically present in traditional captives

Provides alternative funding solutions for self-funded plans and members by sourcing specialty medications at no cost

Manages your risk with maximum protection against high-value claims by providing custom specific and aggregate stop loss solutions

Reduces the financial risk surrounding cell and gene therapies by providing stop loss coverage enhancements for specific drugs
